

Gigalane **Quick End Launch (QEL™ SMA)** is designed for quick launch at the edge of PCB board up to 26.5 GHz. Specially designed leg immediately adjusts and firmly holds its attachment with the PCB. It is ideal solution for all active & speedy tests required in R&D. When compared with conventional end launch connector, it will effectually reduce soldering and assembly time when deployed in mass production.

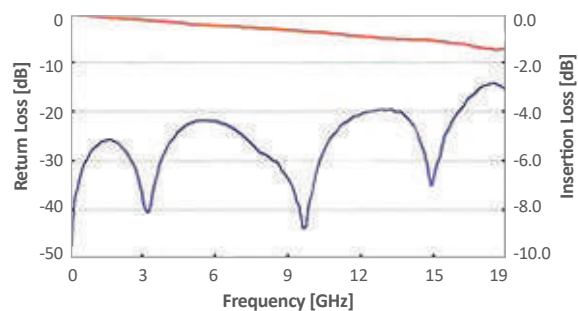

Unit : mm [Inch]

## Quick End Launch JACK

• **Part No.** PSF-S06-001 • **Board Clearance** 1.25 ~ 2.0 mm

<DUT>  
• **Connector**  
- PSF-S06-001 : 2ea  
  
• **PCB**  
- 50 Ω Line Width : 1.2 mm  
- Line Length : 18 mm

\*As described in the table, 2 product specifications are available to accordingly cover all common PCB thicknesses.
